

Better access to labour market for young unemployed through cross-border sport volunteers model (YOUTH-SPORT-VOL)

Programme Priority: P4 Skilled and socially inclusive region

Programme Specific Objective: 4.1. More people benefiting from stronger Central Baltic communities

Sub-programme: Southern Finland - Estonia

Duration: 01.02.2016 - 31.01.2018

Total funding: 255.906 EUR

ERDF funding: 209.995 EUR ERDF

Project Summary:

The Central Baltic economies are experiencing high youth unemployment rates; it's a challenge for young graduates to enter the labor market. The main obstacle is not so much identifiable with lack of education rather with lack of experience. One opportunity to receive work experience is to do voluntary work.

According to a LinkedIn research, 41% of managers hiring through LinkedIn consider volunteer work as equally valuable as paid work experience when evaluating candidates. In the EU, volunteer activities related to sport attract 20 million people.

Currently, in the CB region, access to volunteering opportunities is dispersive: young people could more effectively and systematically provide their contribution as sports volunteers if information concerning different opportunities for volunteering were more easily available.

The aim of this project is to increase young people opportunities to access the labor market, by developing and piloting a cross-border sport volunteering model in Southern-Finland and Estonia through the following activities:

- 1) Development of a cross-border sport volunteering model that will be tested by 500 young unemployed during different sport events in Estonia and Southern-Finland;
- 2) Development and pilot of an innovative ICT-based platform to unite sport volunteers and promote sport volunteering opportunities in Southern-Finland and Estonia;
- 3) Set up a promotion campaign and awareness-raising seminars at vocational schools/universities. Organize a large-scale conference (forum) to promote sport volunteering possibilities as a labor-market advantage for young unemployed.

YOUTH-SPORT-VOL - a platform to find volunteering work

To improve possibilities for young people to enter the labour market, YOUTH-SPORT-VOL implemented a sport volunteering model. The model allows young adults to gain working knowledge in the framework of volunteering, thus improving their possibilities to find work. To make volunteering easily discoverable, the project created a [web service](#) [3] that allows browsing of events and registering as a volunteer in them. A permanent secretariat for sport volunteering was established at the Tallinn University as well. The project engaged with 985 unemployed young adults, nearly twice as many as planned.
