

Hanseatic Approach to New Sustainable Alliances (HANSA)

Programme Priority: P2 Sustainable use of common resources

Programme Specific Objective: 2.1. Natural and cultural resources developed into sustainable tourist attractions

Sub-programme: Central Baltic

Duration: 01.10.2015 - 31.12.2018

Total funding: 2.180.939 EUR

ERDF funding: 1.775.573 EUR ERDF

Project Summary:

Cross-border cooperation is the only way to give impact for small destinations on the international tourism market. In the HANSA project, the hanseatic heritage will be developed for its great cultural value from three perspectives: the local, the national and the international. On the local level the existing attractions are made known to a broader public. The national perspective aims at bringing cities and their attractions together to strengthen the national tourism product and offer interesting packages. Finally, the international perspective aims at development of cross-border tourism packages.

The project will do branding activities, create materials, and disseminate information online and via tourism organisations and info centres promoting the hanseatic history as well as the Baltic Sea region as an attractive place to see and learn more about it. The project will also strive for linking the local attractions to a wider European context of hanseatic history.

The project outcomes will include more tourism packages based on cross-border cooperation, more visitors to the destinations, a prolonged tourism season as cultural tourism is all-year-round tourism and improved economy including more jobs.

Achieved results

Project result in category - Joint tourist attraction

HANSA developed a joint tourist attraction based on Hansa history

As its main result, the project connected several historic Hansa towns: Cesis, Limbazi, Koknese, Kuldiga, Valmiera, Pargaujas/Straupe and Vidzeme from Latvia, Pärnu and Viljandi from Estonia and Visby from Gotland and developed a joint tourist attraction based on their Hansa history.

All participating cities made research about their Hanseatic history and heritage. It brought pride to towns and citizens to belong to a strong brand and an important European context. Through the research, also historic recipes were found and are now produced as local Hanseatic specialties.

Project organised seminars and events to make stakeholders and citizens aware about Hansa heritage of their towns. In addition, gastronomy festivals were developed which help to prolong tourism season. Project representatives participated at several international tourism fairs, Hanseatic Days, other international and national events to promote the participating towns as a joint historic Hansa towns destination in Gotland, Estonia and Latvia.

Project used sustainable solutions whenever possible throughout its implementation. IT-solutions were in use to provide historic and tourist information as web information, on info screens, downloadable brochures and apps. When preparing tourist information, environmental-friendly biking, walking and hiking products were kept in mind.

By supporting locally produced food, transports of goods are diminished and has given impetus to growth and development of SMEs. The cultural and social sustainability was supported by the involvement of stakeholders and citizens in local Hanseatic events and festivals.

Real cross-border value was achieved by increasing cooperation between Gotland, Estonian and Latvian Hansa towns. Joint tourism development and marketing makes them more attractive as a joint tourism destination. Information about Hansa history of participating towns, tourism offers and brochures are available on the web page <https://www.hanse.org/en/projects/explore-hansa/> [14] and thereby give the project results European visibility.

Project page in database

[Hanseatic Approach to New Sustainable Alliances](#) [15]

At a glance

Hansa history research in each partner city;

Development of new transnational tourism products:

- Biking packages
- Trekking packages
- Culinary city breaks
- "HANSA culinary" quality label
- Hansaetic events and markets
- City tours focused on Hanseatic heritage

Improved tourism information and promotion through:?

- Mobile App
- Tourism information kiosks
- International tourism fairs (Balttour, Tourest, ITB Berlin, Reisen in Hamburg, International Hanseatic Days in Kampen and in Rostock)
- Council of Europe's Forum for Cultural Routes
