

Long distance cross-border hiking trail “The Forest Trail”. (Forest Trail)

Programme Priority: P2 Sustainable use of common resources

Programme Specific Objective: 2.1. Natural and cultural resources developed into sustainable tourist attractions

Sub-programme: Central Baltic

Duration: 01.04.2019 - 31.12.2021

Total funding: 1.215.720 EUR

ERDF funding: 960.419 EUR ERDF

Project Summary:

Forest trail project aims at presenting hikers the opportunities that Latvian and Estonian forests have to offer them and to show them how to enjoy the forest life - nature processes, landscapes, animals, birds, trees, mushrooms, etc., through a guidebook, an ad hoc website, and a mobile application. The project will also make sure to mark all of the country hotels and guest houses conveniently located along the trails. The route is split up into approximately 50 one-day routes, each of them around 20 kilometers long.

The Forest Trail project will cross protected landscape areas, two national parks – Gauja and Lahemaa, will pass through the land of Seto people with their authentic folk heritage, and will wind along the Lake Peipsi. Riga and Tallinn as start or endpoints will make the Forest Trail easily accessible to foreign guests: it will be linked with European long-distance hiking path.

Forest Trail created a long distance hiking route

The Forest Trail project created a long distance hiking route. It leads through the most forested lands, regional, nature and national parks of Estonia and Latvia. The total length of the Forest Trail Northern part approximately 1060 km.

The route is split in ca 20 km sections or hiking days. Each day of the Forest trail has a description, maps and downloadable GPX routes - start and end points, how long the expected walk will be, what the road surface is, and what will be worth seeing along the way. Hikers can read more information about the most interesting and significant places, landscapes, nature landmarks ??and see the photo, so as not to miss the views on the way, also find information on places to eat, buy water and snacks, and also spend the night.

The developed Forest trail route in the Central Baltic project is connected to the southern route (from the Lithuanian / Polish border through Kurzeme to Riga) developed in the Latvia-Lithuania Interreg programme project. Both trails will be part of the E11 route of the European long distance hiking trail network by ERA – European Ramblers' Association. The total length of the Forest Trail in all three Baltic states will be more than 2000 km, and the trail will include all forest types and wildlife features typical of the Baltic States.

Name in Latvian: *Mežtaka*

Name in Estonian: *Metsa matkarada*
